

Dear FCC:

I receive a great deal of benefit from listening to XM Satellite Radio. The variety and high quality of broadcasts -- commercial-free too! -- are not available anywhere else. For this, I pay a monthly subscription which is worth every penny. Therefore, the National Association of Broadcasters (NAB) should not be able to dictate what I am permitted to hear.

I respectfully urge the FCC to reject the NAB's petition 04-160, and further, to support XM Satellite Radio's commercial rights to provide any types of commercial-free broadcasting for which I am willing to subscribe to.

Regards,  
Ben Petree
